

UPDATE – March 25, 2020 – 9:30 AM

Good morning,

We are currently making preparation to provide weekly educational opportunities for our students starting on Monday March 30th. We are finalizing plans and still receiving continuing guidance and clarification from the PA Department of Education. Teachers met in online video conference sessions yesterday to help contribute to the planning process and are working remotely over the next three days to develop instructional activities for our students. Our teachers miss their students and are excited to be able to find creative ways to interact and learn together during this closure. These activities will be available on the website www.pcam.org with alternatives available for those who may not have technology access. Please stay tuned!

In the meantime, you can visit the [Resources for Families](#) link on our website for links to helpful resources and learning activities. #PantherStories questions continue on Twitter. Also, we are planning a virtual theme week next week for students, staff, and the community.

We continue to work to develop plans for addressing issues such as dual enrollment courses, scheduling of activities, and more. Please know that our first priority during this pandemic is to do our part to keep our communities safe and healthy. Thank you to our entire community for your support and patience during this incredibly difficult time. We can get through this together!

We continue to encourage everyone to continue to follow recommendations provided by the PA Department of Health and the CDC. Please stay home and stay well!

William W. Marshall

Superintendent

Penn Cambria School District
