***Tip from our Speech teacher, Mrs.McMullen:** **Mirror, Mirror On the Wall** Modeling is an important piece of any speech therapy program and parents can get in on the fun by helping their children learn how to properly pronounce by using a mirror. Choose a few words that are challenging them and demonstrate by moving your mouth slowly as you say the word to say them. Then, let your child speak in front of a mirror so they can see how to move their mouth to make certain sounds. Get silly and include plenty of onomatopoeias like buzz, moo, roar, and meow.
