**BACKGROUND INFORMATION**

1. An Excel budget workbook is used to develop the district-wide budget. *Remember, [the workbook is a planning tool.](#)*
2. This process gives you the opportunity to develop your individual budget based on the specific educational needs for your subject area.
3. **We use a preliminary budget-planning model, under a very aggressive timeline.**
4. The blank Excel workbook has been modified to reflect all of the PDE changes, including updated descriptions in the upper right area of individual worksheets.
5. The Kurtz process will proceed as usual. Your building secretaries will order routine annual items (outside the Kurtz bidding process) listed in your workbooks in early July 2021, after the budget receives final board approval and is adopted – *pending the existence of a budget at the State level.* Since we utilize your individual budget workbooks as source documents for all other items ***it is critical that all ISBN numbers, part numbers, catalog numbers and pricing is current as of the date you are completing your budget workbook, or as projected at the time the order will be placed.*** ***Do NOT use expired catalogs. Use online sources for pricing!*** Your preliminary Kurtz order must be built in

the Kurtz system no later than **November 13, 2020** so that the **discounted** total of that order can be copied into your Excel budget workbook before submitting it (see #10 on page 4 for additional information.) Direct questions specific to your department or classroom to your building principal or supervisor.

6. The final adopted version of your individual budget as reflected in the district-wide budget will be available to you for future reference.
7. NEW TEACHERS – consult with your mentor for additional guidance.
8. TEACHER MENTORS – please make time to guide our new teachers through our budget planning process.
9. RETIRING TEACHERS – prepare a budget workbook as if you were not retiring.
10. TEACHERS ON LEAVE OF ABSENCE – principal/supervisor is responsible for making sure a budget workbook is completed for any teacher who may be on a leave of absence during the budget prep window (e.g., maternity leave, etc.).
