Professional Development Plan (Act 48) | 2026 - 2029

Act 48

Chapter 4 establishes that each school entity shall submit to the Secretary for approval a professional education plan every 3 years as required under Chapter 49, Section 17(a). A school entity shall make its professional education plan available for public inspection and comment for a minimum of 28 days prior to approval of the plan by the school entity's governing board and submission of the plan to the Secretary.

Chapter 49.17, Continuing professional education, establishes that every school entity shall develop a continuing education plan that addresses the following requirements:

1. Includes options for professional development including, but not limited to, activities such as: (i) graduate level coursework; (ii) obtaining a professionally related master's degree; (iii) department-approved in-service courses; (iv) curriculum development work; and (v) attendance at professional conferences.
2. Defines terms used including, but not limited to, the following: (i) Professionally related graduate level coursework. (ii) Professionally related master's degree. (iii) Curriculum development work. (iv) Professional conferences.
3. Developed as specified in section 1205.1 of the act in which the plan describes the persons who developed the plan and how the persons were selected.
4. Submitted to the Secretary shall be approved by both the professional education committee and the board of the school entity.

5. Includes a section which describes how the professional education needs of the school entity, including those of diverse learners, and its professional employees are to be met through implementation of the plan. The plan must describe how professional development activities will improve language and literacy acquisition for all students and contribute to closing achievement gaps among students.
6. Includes a description of how the school entity will offer all professional employees opportunities to participate in continuing education focused on teaching diverse learners in inclusive settings.
7. A school district that contracts with a community provider to operate a prekindergarten program shall address in the school district's professional education plan how the school district will offer professional education opportunities to teachers in the community provider's prekindergarten program.

LEA provided professional education meets the education needs of that school entity and its professional employees, so that they may meet the specific needs of students. Professional education for all levels of an LEA should be based on sound research and promising practices that promotes educators' skills over the long term.

Exemplary professional education for staff:

- Enhances the educator's content knowledge in the area of the educator's certification or assignment.
- Increases the educator's teaching skills based on research on effective practice, with attention given to interventions for struggling students.
- Provides educators with a variety of classroom-based assessment skills and the skills needed to analyze and use data in instructional decision-making.
- Empowers educators to work effectively with parents and community partners.

Professional Development Plan Assurances

Professional Development Plan Assurances

Professional Education Plan Guidelines	Yes/No
Are the professional development activities aligned with the current and applicable Pennsylvania Core Standards or Pennsylvania Academic Standards? (22 Pa Code, Chapter 4)	Yes
Are the effectiveness of offerings evaluated through multiple measures of student achievement within the context of educator effectiveness to determine impact on student learning, educator effectiveness, and/or school performance? (Act 82 of 2012) aka (22 Pa Code, 19)	Yes
Are the professional development activities aligned to at least one component of one domain within the Observation and Practice Framework for Teaching?	Yes
Does the professional education plan contain a committee consisting of teacher representatives divided equally among elementary, middle and high school teachers chosen by the teachers, educational specialist representatives chosen by educational specialists and administrative representatives chosen by the administrative personnel? (Act 48, Section 1205.1)	Yes
Does the committee include parents of children attending a school in the district, local business representatives and other individuals representing the community appointed by the board of directors? (Act 48, Section 1205.1)	Yes
Was the professional education plan approved by the professional education committee and the board of the school entity? (22 pa Code, 49.16)	Yes
Does the professional development plan align with educator needs? (Act 48, Section 2)	Yes
Do the implementation steps cover at least a three-year implementation horizon?	Yes
When is the first year the LEA will offer Structured Literacy Training to the staff?	2025-2026
Who will receive the Structured Literacy Training in addition to the five required certifications (early childhood, elementary-middle level, special education, ESL, and reading specialist)? Required certifications and others professional educators in elementary/middle level buildings.	
Is the LEA using or planning to implement Structured Literacy (Select One)? Hybrid, Structured Literacy components integrated into reading program.	

Evaluation and Review

Describe in the box below the procedures for evaluating and reviewing the Professional Education Plan.

Using multiple evaluation methods is essential to accurately determine both the effectiveness and ongoing needs of Penn Cambria School District's Professional Education Plan. Evaluation will occur across several levels to provide a comprehensive picture of impact and sustainability. The Professional Education Plan will be reviewed annually and revised as needed through data analysis.

--Student Outcomes-- Evaluation at this level focuses on measurable changes in student performance. Data sources will include PSSA and Keystone scores, PVAAS data, DIBELS data, and Acadience Math data. Along with academic content knowledge, it is necessary to also examine graduation rates, attendance data, and SAEBRS data (social-emotional screener) . Progress in these areas help determine whether our Professional Education Plan is positively influencing student success. Responsible Parties: Assistant to the Superintendent, Building Principals

--Participants' Use of New Knowledge and Skills-- This level examines the extent to which participants apply what they have learned in their daily professional practice. Evaluation will occur through classroom observations (formal and walkthrough observations) via PAETEP, and teacher feedback during grade or department level meetings. Responsible Parties: Building Principals

--Participants' Learning-- Evaluation of learning measures the increase in participants' knowledge, skills, or understanding as a result of the professional education activities. Methods may include pre- and post-assessments, surveys, demonstrations, reflective writing, or artifacts. These measures help determine whether learning objectives were met during the professional education activities. Responsible Parties: Assistant to the Superintendent, Building Principals, Professional Development Facilitators

--Participant Reaction-- Participant reaction evaluates how individuals perceive the quality, relevance, and usefulness of the Professional Education Plan. Evaluation measures include feedback forms and informal discussions. Positive reactions can indicate engagement and perceived value, which support continued participation and implementation. Responsible Parties: Assistant to the Superintendent, Building Principals, Teachers

--Organization Support and Change-- This level assesses how the organization supports and sustains the professional education efforts. Feedback on success and improvements will be gathered during Penn Cambria School District's Educational Leadership Team meetings, along with discussion of allocation of resources, policy or practice changes, scheduling support, and alignment with organizational goals. The PCSD Board of Directors will review, discuss, and approve the Professional Education Plan. Strong organizational support increases the likelihood of long-term success and systemic improvement. Together, these evaluation levels provide a balanced and data-informed approach to assessing the overall effectiveness, impact, and sustainability of the Professional Education Plan. Responsible Parties: Superintendent, Assistant to the Superintendent, Business Administrator, Building Principals

Professional Education Plan Assurances

We affirm that this Professional Education Plan focuses on the learning needs of each staff member to ensure all staff members meet or exceed high academic standards in each of the core subject areas.

Jeanette Black

Professional Education Committee Chairperson:

01/05/2026

Date

I affirm that this Professional Education Plan provides staff learning that improves the learning of all students as outlined in the National Staff Development Council's Standards for Staff Learning.
